## Märklin NOHAB / ESU LokPilot V2.0

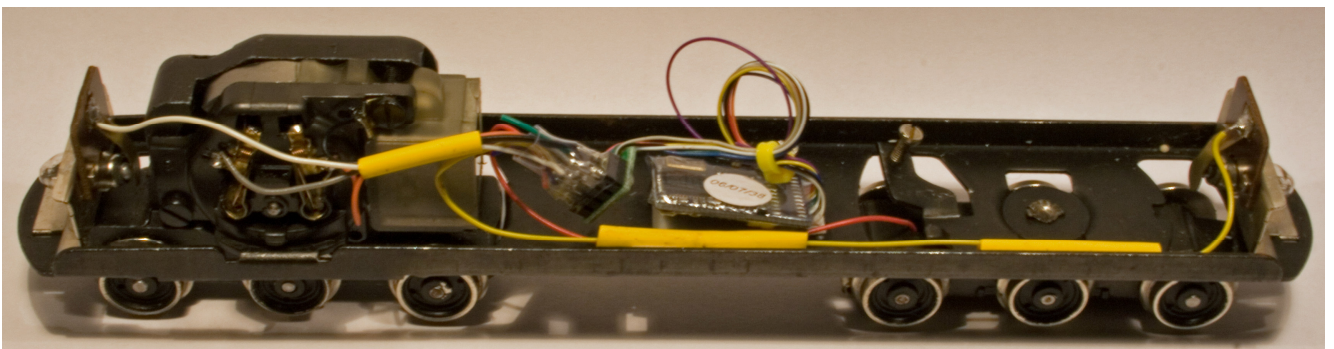

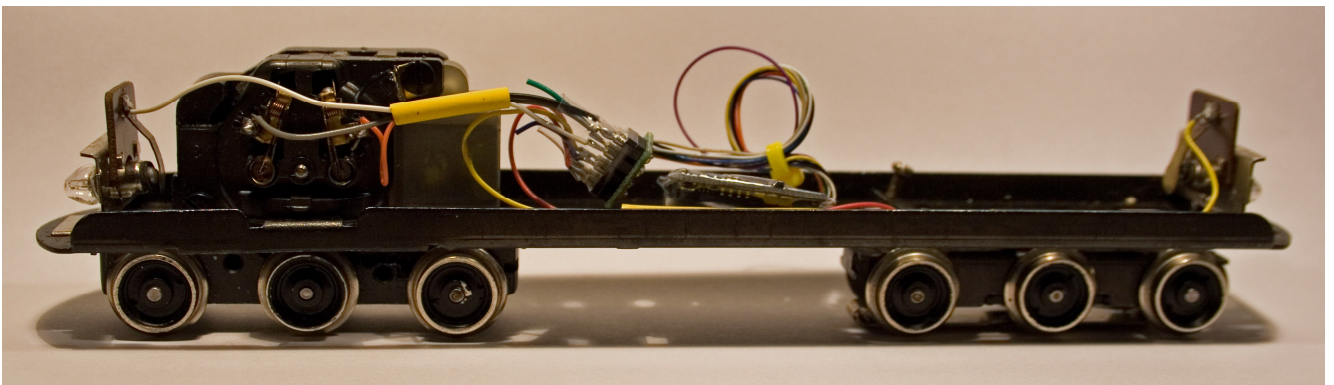

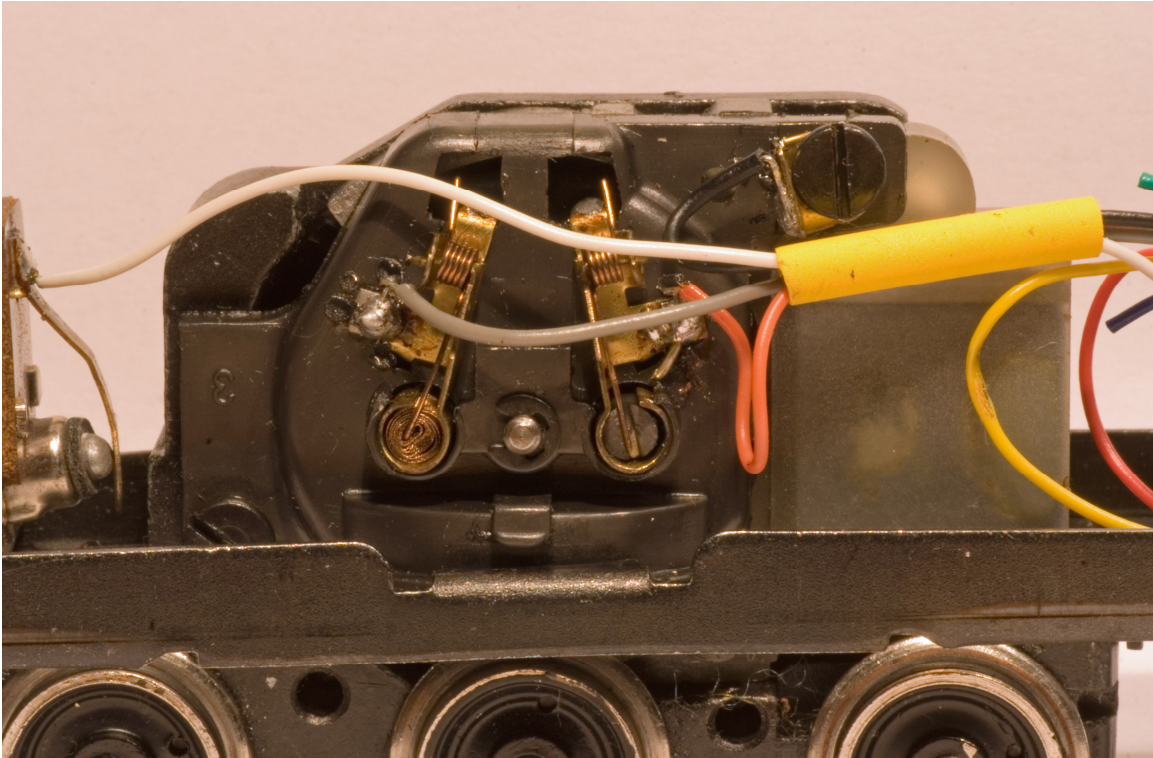

DSB Tjenestelokomotiv MY 1135 based on a Märklin 3067 MY. The field armature has been replaced with a HAMO DC field armature and the locomotive has been refitted with a LokPilot V2.0 locomotive decoder.

## Märklin NOHAB / ESU LokPilot Classic

Please contact me if you have information to add on [info@digitaltog.dk](mailto:info@digitaltog.dk)

I take no responsibility what so ever – this is a hobby project!
